

# 20FT DANGEROUS GOODS STORE

Big workplaces can be full-on environments, which makes up-to-code storage of dangerous goods even more key. CSL's 20ft Dangerous Goods Store has all the purpose-built safety features of the 10ft, but with twice the space and two access points. Great for big sites with big storage needs.

## Rough 20ft Dangerous Goods Store dimensions

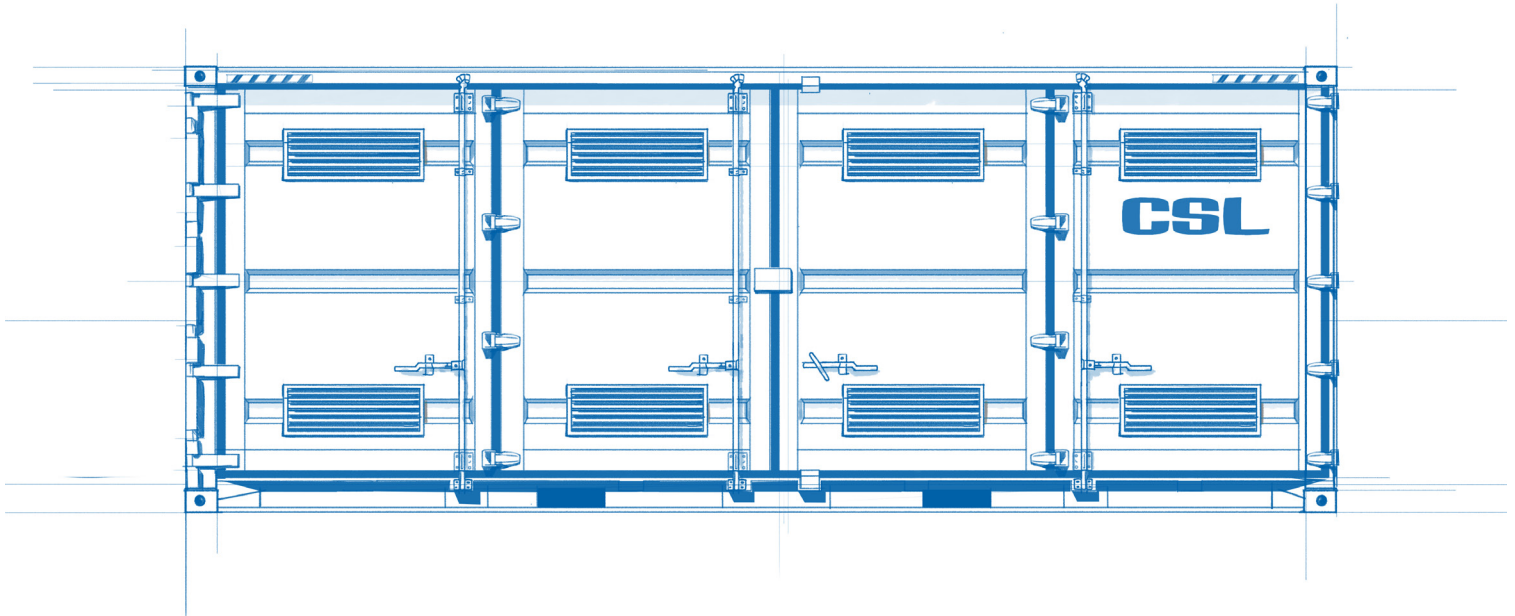

6.1m L x 2.5m W x 2.9m H

Internal capacity approximately 17.4m<sup>3</sup>

Bundling capacity approximately 1.1 - 1.3m<sup>3</sup>

Available in 10ft if you have less to store.

# 20FT DANGEROUS GOODS STORE

## Designed for dangerous goods

- Bunded floor stops any spills from spreading
- Drainage tap and louver ventilation for proper air exchange included
- Side door and end door opening for flexible access.

## Extra safety and security

- Security system to put a stop to unauthorised access
- MSDS Folder for the safe storage of the MSDS for every chemical stored
- Emergency exit for ultimate safety.

## Built to handle the Kiwi climate

- Made from weathering carbon steel
- Install ramps or extra shelving
- Watertight and wind-resistant.

## Why Choose a 20ft Dangerous Goods Store?

A big site means lots of moving parts, which means staying on top of health and safety can be tough. The 20ft Dangerous Goods Store makes it easy. It's a safe, secure, and spacious place to store hazardous stuff, like chemicals or flammables. So it stays well out of the team's way.

## 20ft Dangerous Goods Store for sale
